SCHÄFER

361 COMPACT & GLASS LOCKER SYSTEM

SCHÄFER CASE

361 **COMPACT** LOCKER SYSTEM

Schäfer CASE cloakroom lockers combine the best of proven technology and new design – combined in a winning solution. By using a cabinet system that has variable height, depth and width as well as push-in system made of HPL-materials, the system can be easily assembled to fit into existing buildings. Any space can be used effectively. A unique, innovative finger protection guarantees best safety – certificated by the German Technical Inspection Agency.

Features

- Anti Virus / Anti Bacteria

- Scratch / Impact / Water Resistant

- No gaps in between the locker sets of columns.

- Connection of panels for different tiers with mortise and tenon mechanism to ensure the security.

- Integrated footing support design with the locker system to ensure a streamline design and stability.

- Unlimited Colour Combination

SCHÄFER VITRUM GS

361 **GLASS** LOCKER SYSTEM

The Schäfer VITRUM GS wardrobe lockers with safety glass fronts are the design highlight in the changing area. The material glass in its infinite variety of colours and motifs focuses on elegance and high quality and allows interior design almost unlimited design possibilities. The material glass brings many advantages: a very efficient cleaning of the surfaces, high resistance to mechanical damage and a careful handling of the users due to the material type glass.

DIMENSION

361 HED & SCHÄFER LOCKER SYSTEM

LOCKER SIZES

The division of Schäfer & HED™ lockers is very variable. No matter if single, double, multiple cabinets up to Z-cabinets, helmet and safety deposit boxes. Sizes and arrangements can be ideally attuned to the present space situation.

SET-UP VARIATION

Also the set-up options cater for the relevant building situation:

(a) Installation on aluminium plinth.

(b) Installation on a tiled concrete plinth.

(c) Installation on an aluminium plinth with integrated bench.

(d) Installation on a tiled

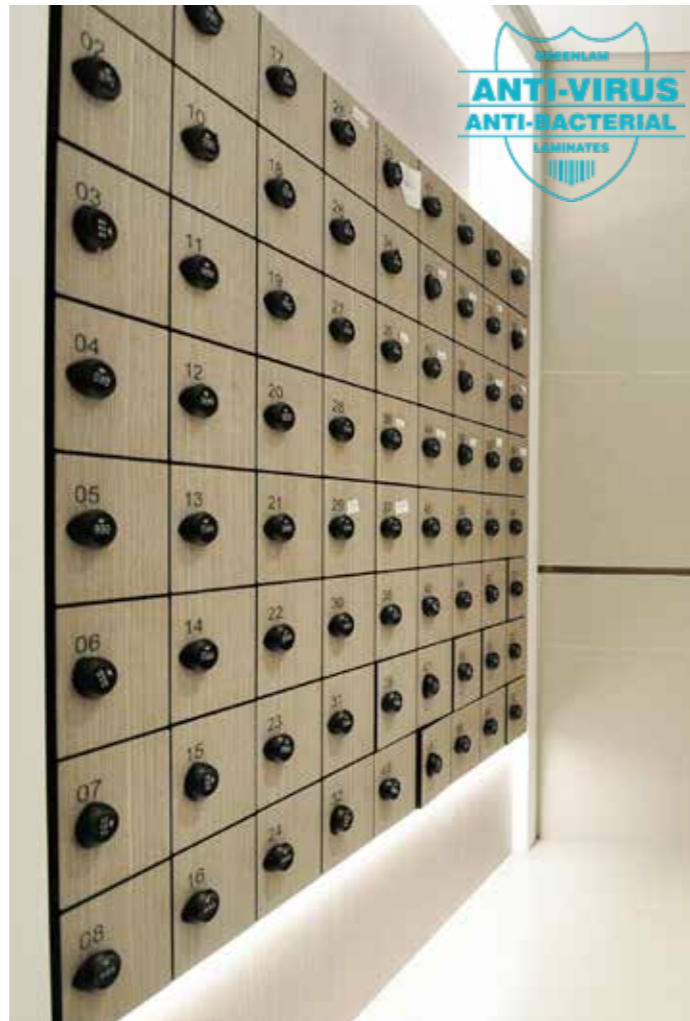

(a) (b) (c) (d)
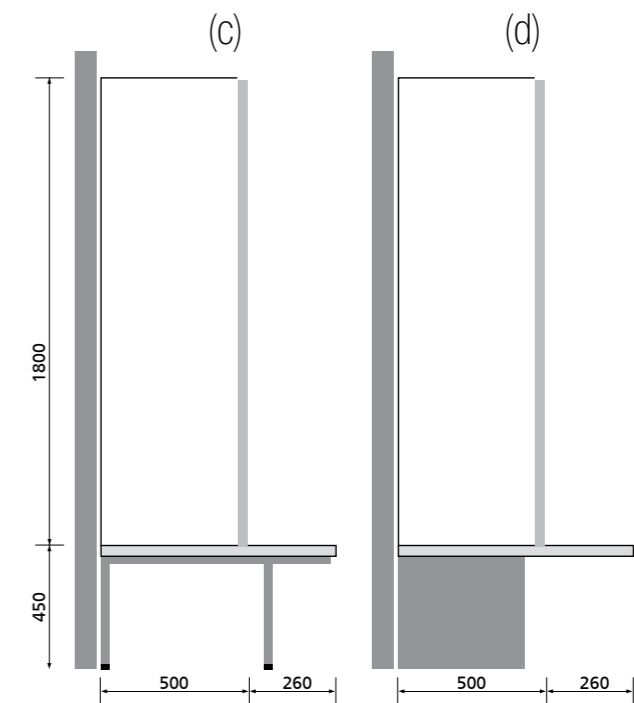

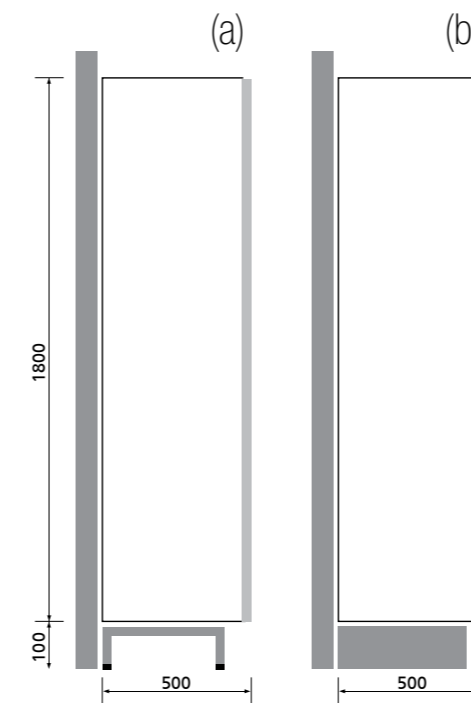

ROOF VARIATION

Attached slanted rooves prevent that bags or other items will be placed on top of the cabinets. An important criterion in hygiene sections.
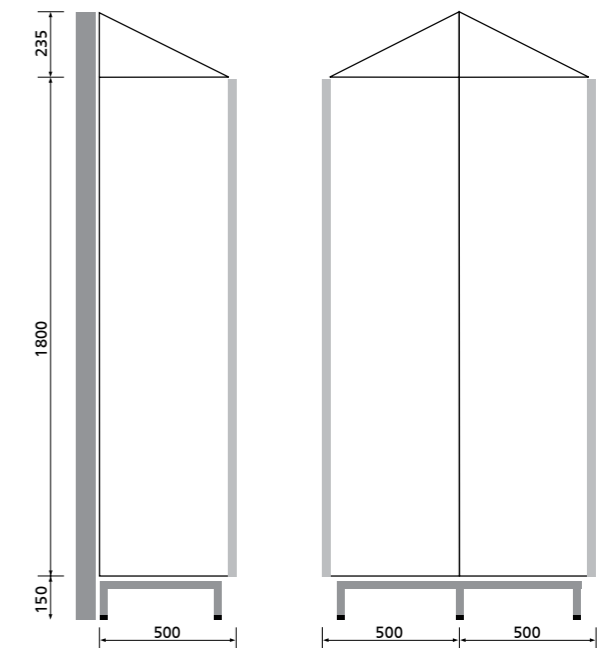

HED™ & SCHÄFER
DEPOSIT
BOX

Storing valuables has a high significance especially in pool and fitness areas. The storage of valuables should generally be separated from the regular lockers. For that purpose, monitored areas are more suitable.

HADRIAN
METAL LOCKER SYSTEM

METAL LOCKER

HADRIAN®
GLADIATOR
ATHLETIC

METAL LOCKER SOLUTION

With superior strength, airflow, quietness, and a powder coated finish, Gladiators redefine locker room attractiveness. Heavy-duty components integrated with Hadrian's trouble-free and rugged design create the ultimate athletic locker. With fully ventilated doors and sides, Gladiator lockers allow for increased airflow—an absolute must for serious sporting environments.

Hadrian utilizes the latest powder coating technology to apply a hard, even and run-free finish that covers every area of the product and resists impact, abrasions, chemicals, detergents and acids.
