

ARCHITECTURAL SOLUTIONS

GENESIS

GENESIS

Genesis works closely with architects and interior designers to meet the unique needs of diverse applications. Our expertise covers a wide range of areas, including lavatories, commercial spaces, offices, clubhouses, educational institutions, healthcare facilities, and sports venues.

7000+

Projects delivered in Hong Kong & Macau

600+

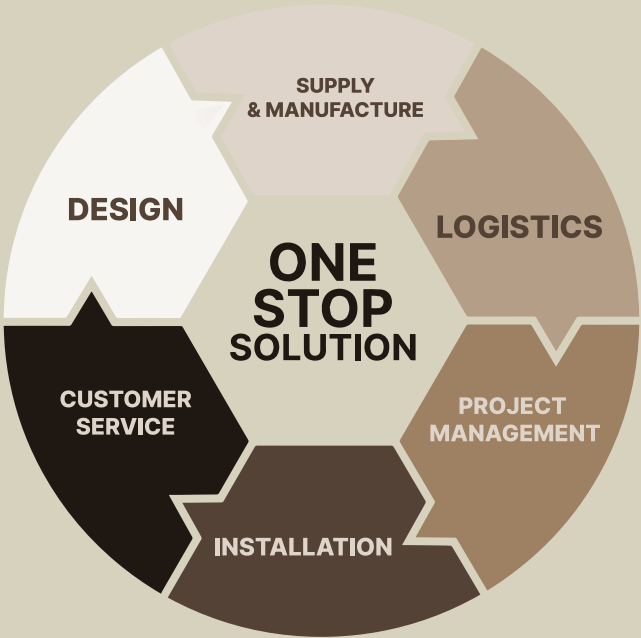

Projects per year

25+

Years of Expertise

OUR COMMITMENT

We are committed to delivering a one-stop solution, maintaining high-quality standards in our products, and achieving results that both we and our clients can proudly stand behind.

The Vision

At Genesis, we are committed to superior quality and results. For over 25 years, we've provided integrated solutions to architects, designers, contractors, and end-users in Hong Kong and Macau, fostering a sustainable future for all stakeholders.

The Mission

Through investment in our people and continuous product research and development, we provide architectural solutions across all market segments. Our goal is to positively impact how people live, learn, work, heal, and play.

TOGETHER

We can restore the planet.

Over the years, Genesis has been committed to work with Architects and Designers to achieve the highest Green Building Certification.

WHAT MAKES A WASHROOM REALLY GOOD?

MY EXPECTATIONS FROM MY WASHROOM

An effective public washroom design requires thoughtful planning and attention to various factors, including layout, materials, lighting, and ventilation. By prioritizing these elements, Genesis's Premium Toilet Cubicle system, along with our Smart Washroom Solutions, create public washrooms that are not only functional and hygienic but also enhance the overall experience for visitors.

DESIGN

A timeless look that combines modern elegance with a diverse color palette.

CLEANLINESS

Anti-bacterial and anti-virus features are essential for maintaining hygiene, especially in public washrooms.

USER-FRIENDLINESS

Products designed for ease of use, ensuring optimal functionality after renovation.

COMFORT

Comfortable and hygienic products that enhance the washroom experience.

SPACE-SAVING

Innovative designs that maximize space, improving comfort and efficiency.

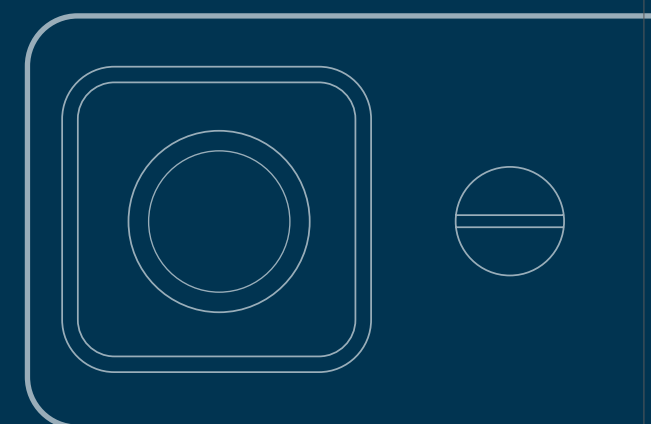

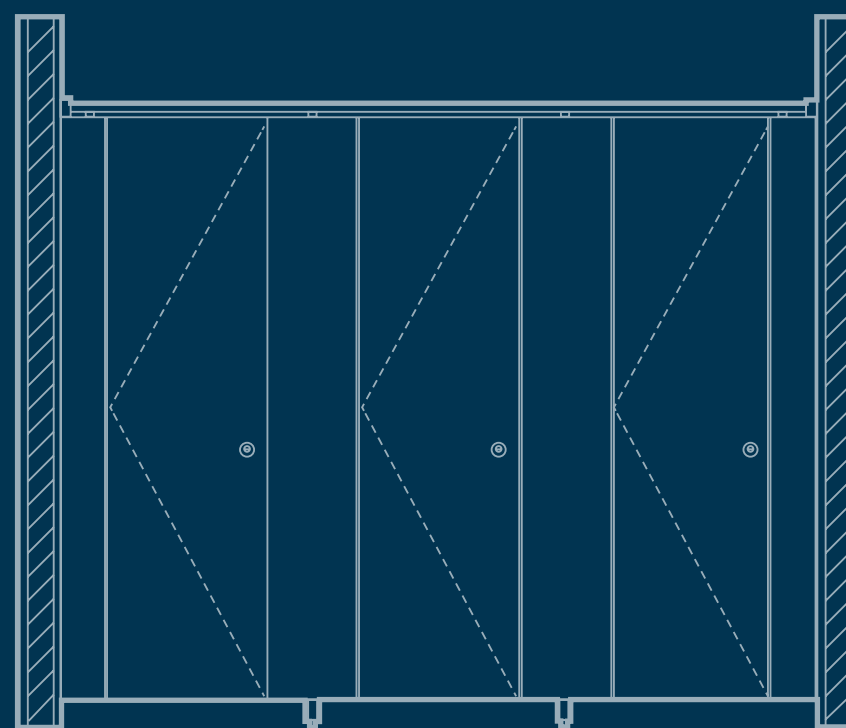

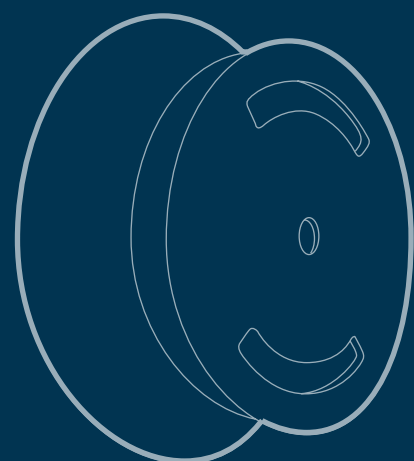

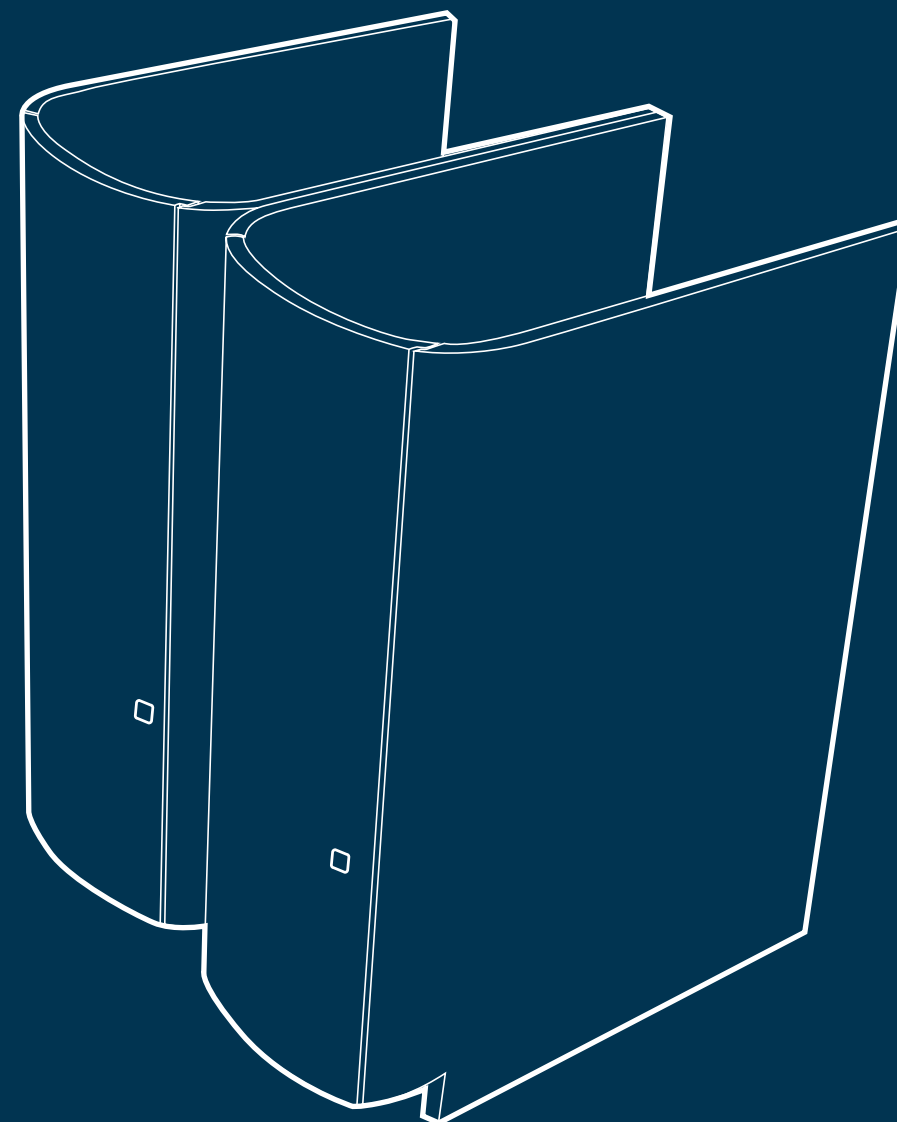

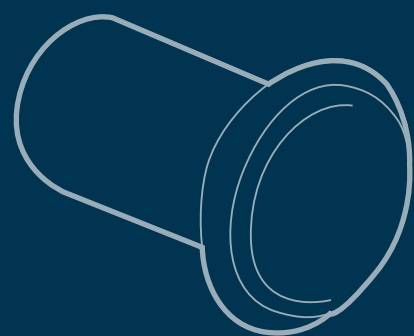

ACCESSIBILITY

Enhanced accessibility improves quality of life, catering to users of all ages.

OUR ACHIEVEMENTS IN THE PUBLIC SECTOR

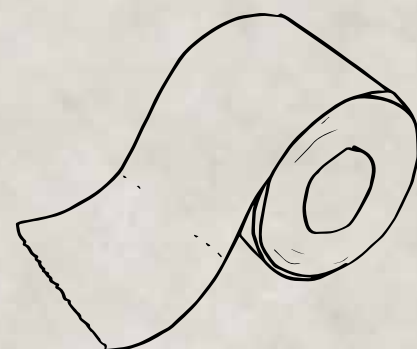

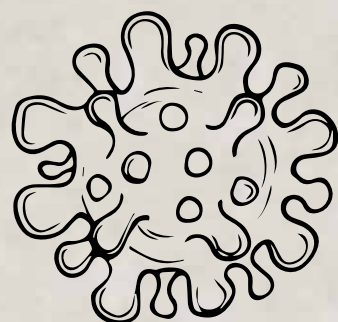

SMART WASHROOM SOLUTIONS

IS THERE CUBICLE AVAILABLE?

IS THERE A TOILET PAPER?!

Scan to Explore!

MY EXPECTATIONS

SMART WASHROOM

People visit the washroom three to four times per day on average, touching many commonly used surfaces in the process. This can make washrooms a hotbed for virus transmission. Looking for an available washroom cubicle can be hassle too. This lack of visibility into washroom conditions can quickly lead to poor user experiences, heightened tenant complaints and unhygienic environments—issues that further complicate facility managers' already a challenging workday.

With Smart Washroom Solution

It helps to prevent the spread of viruses, ensuring the washroom remains clean, monitors air quality, alerts in case of accidents inside the cubicle, detects low toilet supplies and reports management for daily cleaning to maintain a healthy, hygienic and safe washroom environment.

TRAFFIC MONITORING

Sensors provide an accurate indication of how many users enter a particular washroom. This will control overcrowding and reduce queuing time.

AVAILABILITY

The client information display shows which stalls are empty, occupied or available. It also includes temperature, indoor air quality, and weather forecast.

HYGIENIC EXPERIENCE

Smart washrooms enhance the washroom experience for tenants, especially since poor toilet hygiene, sanitation, and waste disposal spread germs and affect public health.

SAFETY AWARENESS

The system alerts management when it detects a fall inside the cubicle or prolonged inactivity. The Management will conduct an immediate response and quick rescue operation.

EFFICIENT MANAGEMENT

Consumable level monitoring ensures timely replenishment of soap, toilet paper and hand tissue paper. Helping management to plan resource needs and allocation more effectively.

GOOD CUSTOMER RELATIONSHIP

Helping facility managers or property owners to improve the quality standards of washroom services will help to build a strong culture and good reputation.

SMART WASHROOM SOLUTIONS

What are the benefits of Smart Washroom Solution?

ENHANCE USER EXPERIENCE

- Enhanced washroom experience.
- Safe and comfortable environment.
- Improved cleanliness, neatness and hygiene condition inside the toilet.
- All in toilet appliances and facilities are available and operating in good condition.
- Pleasant environment with comfortable temperature, humidity, ventilation, air quality.
- No unpleasant odors.

EFFICIENT MANAGEMENT SYSTEM

- Improving washroom management efficiency
- Detects fall incident.
- Save labor cost and minimize overstock of supplies (Soap, Toilet paper)
- Helps facility managers or property owners to improve the washroom service quality standards.
- Automates daily cleaning and emergency repairs management.
- Provide instant alert for emergency (Water leakage), reducing repair cost.
- Efficiently scheduled maintenance.
- Adds value to your property.

ACCIDENT ALERT & SAFETY MANAGEMENT

- Motion Sensor can detect an area of 2 Sqm.
- Protects Privacy - Detect motions only, with no camera lens.
- Property Management will receive the alarm from the motion sensor to initiate a fast and quick rescue operation.

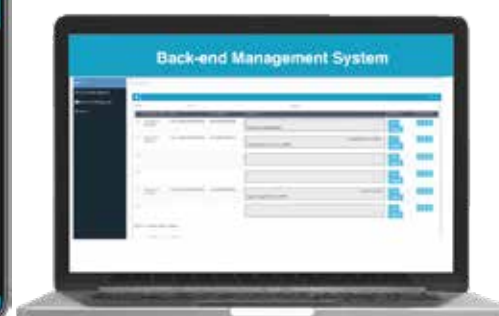

BIG DATA ANALYSIS & CUSTOMER INTERACTION

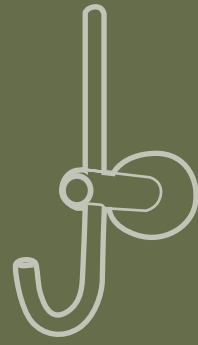

- The system instructs workers and provides insight to management.
- Overall key performance indicators for toilet.
- Specific toilet performance metrics and comparisons.
- Receive notifications/task list from managers.

DASHBOARD REPORTS & CLIENT INFORMATION DISPLAY

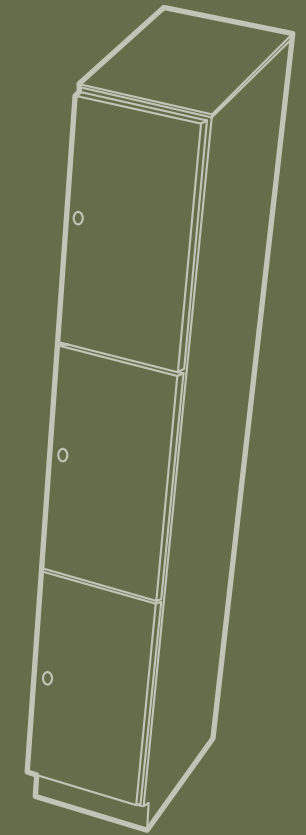

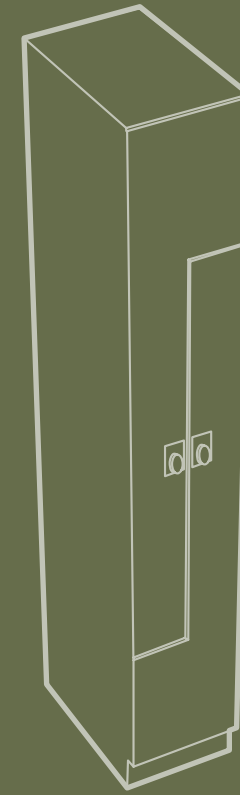

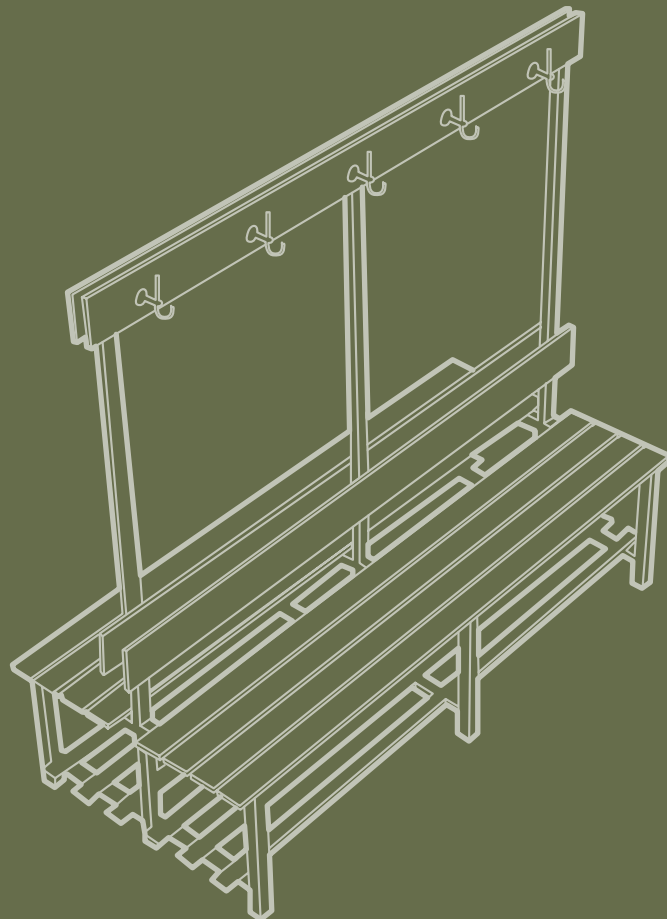

- Enables management to monitor occupancy, alerts, toilet supplies and manpower system.
- Auto-generated reports for property management platform & system.
- On-spot display of generated report and situation for the user.

BACTERICIDAL JOINT

BACTERICIDAL
on request

ESCORT ROUND HANDRAIL

- **Antibacterial: 99.9% of bacteria killed** after 24 hours
- **Higher Impact resistance**
- **Smooth surface** (to prevent build-up of dusts and germs)
- **T-Shape** (on-piece design bracket - 2 screws)
- **Anti-Static**
- **1.5mm Thickness** (more Durable)

PERFORMER 2 BUMPER HANDRAIL

- **Anti-Scratch**
- **Excellent Handgrip design** (comfortable even at corners)
- **No Bacteria** (based on test result)
- **Smooth surface** (prevent build-up of dusts and germs)
- **Aluminum Core** (Highly durable and rigid for long lengths)
- **3mm Thickness** (more durable)

IMPACT BUMPER GUARD

- **High Impact Resistance** (up to 320kg at a 3km/h speed)
- **Streamlined design** (prevents dust accumulation on top)
- **8 Fulcrums** (reinforced with thick material)
- **3mm Thickness** (enhance impact resistance)

Unique rounded spine makes corner harmless

Continuous pre-drilled Aluminium Core

CORNEA & CAPCORN CORNER GUARD

- **Antibacteria Materials**
- **Two tightly secured screws on top** (enhanced durability)
- **High Scratch Resistance**
- **Aluminium Core**
- **Unique rounded spine** (corner harmless)
- **Fire Resistance (EN13501-1 B-s2,d0)**
- **2mm Thickness** (more Durable)

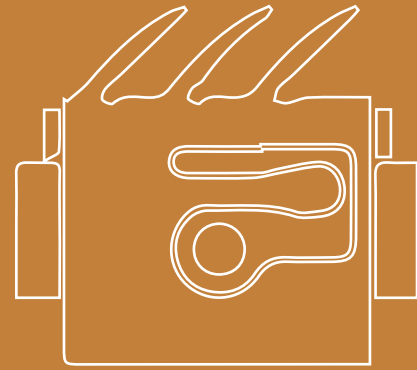

ERGONOMICS

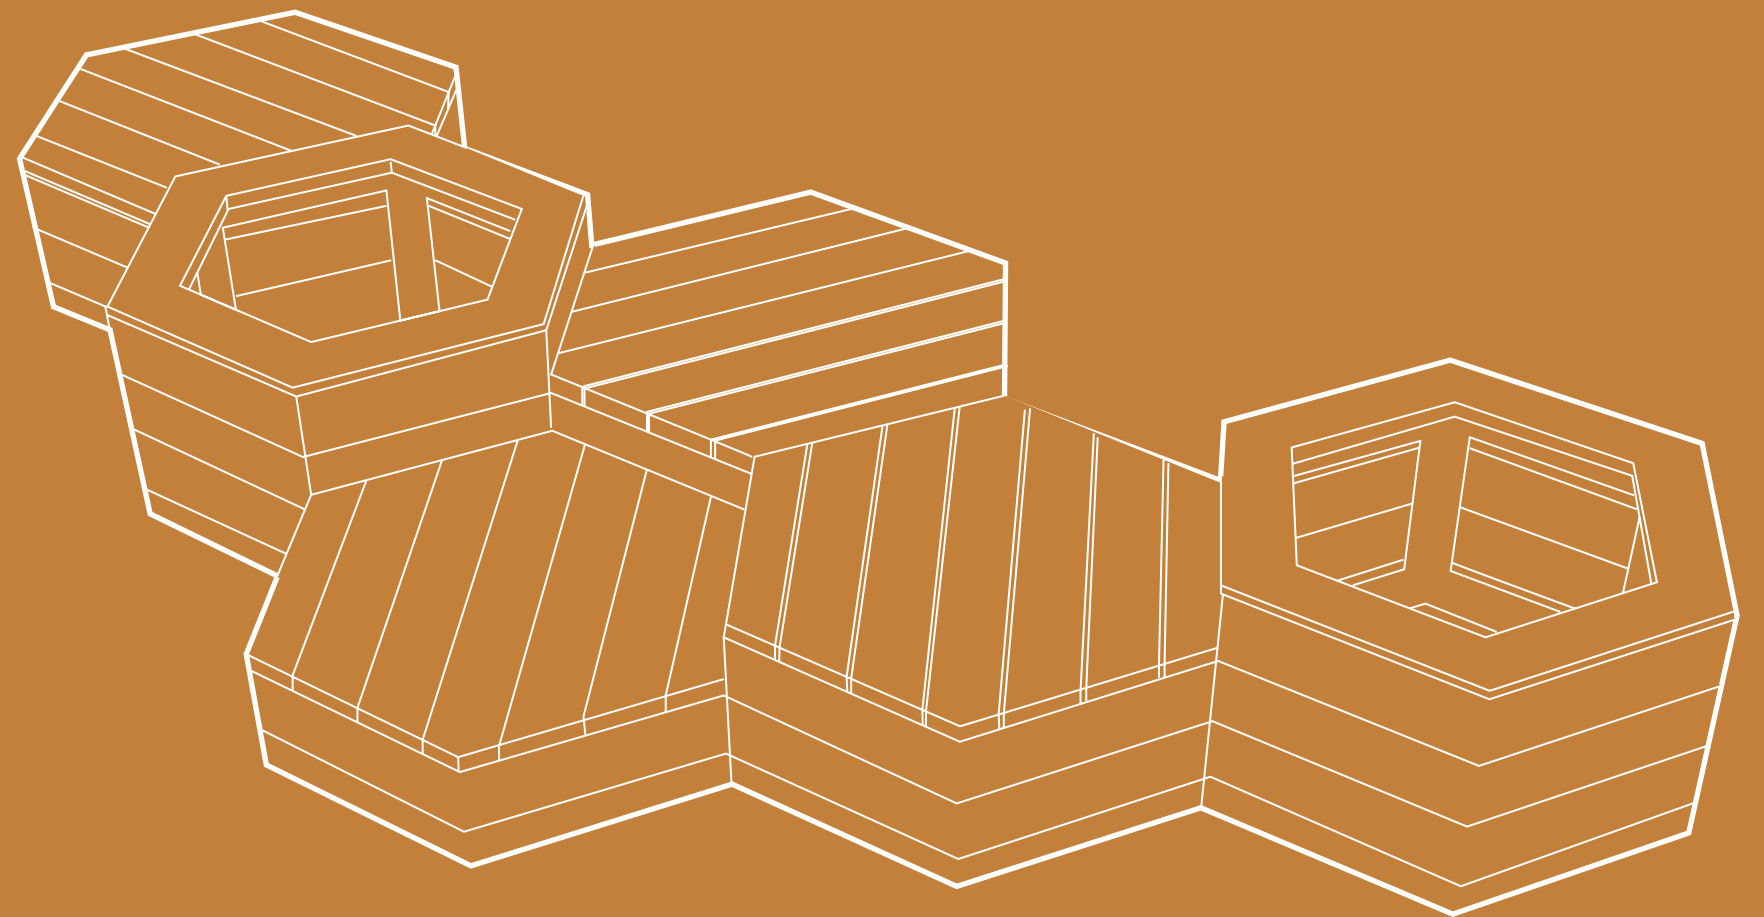

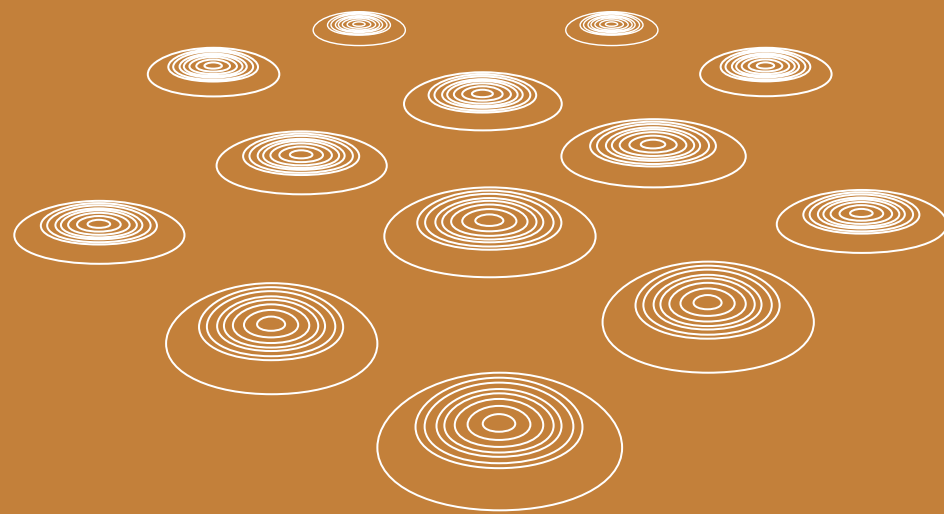

VALIDATED BY
ERGONOMIST

Excellent Handgrip design (comfortably even corners)

ANTI-SLIP FLOORING

RESILIENT SHEET VINYL FLOORING

INCREASE PUBLIC SAFETY

High slip resistance, engineered for multidirectional traction.

WEATHER RESISTANCE

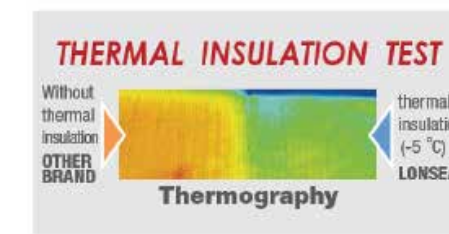

RESILIENT & DURABLE

High tolerance for weather-related environments resistance to color changes due to sunlight. Additionally, it can endure heavy loads and high traffic.

COOLER WHEN WALKING

Thermal insulation type to prevent the sheets' temperature rise due to direct sunlight. Anti-slip vinyl floor for poolside with excellent weather resistance performance
